

**We Are Safe.** The past 10 days have been unbelievably tragic for many in our Napa and Sonoma communities. Fortunately, the wildfires are now largely contained and our weather is cooperating, providing cooler temperatures and only mild winds. We want to sincerely convey our thanks to all of you who contacted us with your thoughts, prayers and offers of assistance. We have good news to report - fortunately, our staff and homes are all safe and sound, our growers' vineyards were largely untouched and our winery and tasting room miraculously made it through with no fire damage. Our Mutt Lynch team is slowly returning to our normal routines, as best we can.

**If You Wish to Donate.** As we all know, many were not as fortunate as our small team. If you would like to make a donation, we encourage you to give to the [Sonoma County Resilience Fund](#) to address the needs of those impacted by these devastating fires. The Sonoma County Resilience Fund is managed by Community Foundation Sonoma County to provide long-term relief to those impacted by the fires. Donations to the Resilience Fund will be used across Sonoma County and will be directed to the areas of greatest need. We thank you for this support.

**Come Visit Sonoma County.** We need you to visit. Tourism will take some time to rebound and get back to normal, but our local hotels, restaurants and wineries are open and need visitors now. As a small business, Mutt Lynch depends on visitors to our tasting room and our webpage. We have always appreciated your support and will appreciate it even more in the coming weeks as we get back on our feet.

**We are open daily at:**

At Mutt Lynch, we're ready for your call and online orders and say with the warmest intentions "thanks in advance."
